

# CONSTRUCTION AND GROUNDS MAINTENANCE

Highfield Qualification Level 1 Award in Health and Safety within a Construction Environment

## Course Overview

This qualification covers common hazards and risks in a construction environment, safe manual handling practices, working safely at height and working safely around machinery. It also covers the importance of effective teamwork and communication in ensuring safe working practices are followed in the construction industry.

Learners have the opportunity to develop their skills through upcycling projects as individuals, and working collaboratively with others.

## Career Progression

This qualification is designed for learners working in, or aspiring to work in, the construction industry.

Upon successful completion of this qualification, learners may wish to continue their development by undertaking one of the Level 2 Award in Health and Safety within the Workplace (RQF).

## Key Facts

### Course Duration

The total qualification time for this qualification is 29 hours and of these 21 hours are recommended as guided learning hours.

### Entry Level Requirements

Learners must have a basic level of literacy.

### Assessment

The qualification is assessed by a multiple-choice question examination.
